

Contents

Opinion paper

- Dynamics of cold arid zones in the Hindu Kush Himalaya and their implications for ecosystem services and human well-being** 1

Eklabya Sharma and Avantika Thapa

Perspective Paper

- Nature-based solutions in cold arid landscapes: Opportunities for integrated land, water and livelihood resilience** 7

Bandana Shakya and Bibek Sharma

- Hydrological dimension of Ladakh under changing climate** 23

Purushottam Kumar Garg, Shekhar Singh, Mohit Prajapati, Aamir Jan Farooq, Mohd Ilyas, Ajoy Karmakar, Sandipan Mukherjee

- Hydro-climatic trends and dynamics of water availability in Leh (Ladakh): Implications for sustainable water resource management** 43

R.K. Goyal and Mahesh K. Gaur

Opinion paper

- Mining Indian cold-desert-gold: The seabuckthorn for health and sustainable development** 53

Madhu Bala

- Seabuckthorn polyphenols and human health: Research highlights and future scopes** 61

Gargi Dey

- Developmental case report of women empowerment through sea-buckthorn based enterprise in Trans Himalayan region** 71

Sarla Shashni

- Medicinal plant diversity and traditional healthcare knowledge in the Trans-Himalayan cold desert of Ladakh, India** 81

Vaneet Jishtu and G.S. Goraya

- Wild and semi-wild edible plants in high altitude cold desert of Ladakh: A comprehensive review** 105

Mahesh Kumar Gaur, R.K. Goyal, M.S. Raghuvanshi and Anurag Saxena

- Spatial distribution and climatic sensitivity of juniper forests in the cold-arid Ladakh, north western Himalaya, India** 121

Krishna G. Misra, Ravi S. Maurya, Sadhana Vishwakarma and Sandhya Misra

- Mulching and greenhouse structure significantly impact spinach production during winter in Trans-Himalayan Ladakh, India** 131

Dattatray S. Dhavale, Tsering Stobdan, O.P. Chaurasia and Vishal B. Mhetre

- Capparis spinosa L. is still a difficult-to propagate crop - a propagation trial at Spiti Valley, India** 143
