\*The corresponding author must have significantly higher contribution (in percentage) than by any other coauthor

\*\*The contribution of writer of introduction (10%), Writer of discussion (5%), Data analyzer(10%), methodologist (10%), reviser of manuscript(10%), Chairperson in case of student research (30%), Cochairperson in student research(15%), Member from Major/minor subject(5%), CO-PI of project (30%), Project Associate (20%), Cooperating scientists/ technicians (10%), Research Associate(5%)should not exceed ideally as mentioned in parenthesis.

# **Performa for Research Ethics Statements**

Step 1. INCLUDE THE STATEMENT OF COMPLIANCE WITH STANDARDS OF RESEARCH INVOLVING THE ANIMALS.			
	(Not Applicable/ Yes/ No)		
If your work does not include animals as subjects, write not applicable and continue to the next step			
If your work includes animals, it is necessary to include a statement of compliance with the standards of research involving animals.			
All applicable international, national, and/or institutional guidelines for the care and use of animals were followed.			
Please note that there are no well-defined standards applicable to all types of research. The main id	ea is to state that in the research		
you observed humane principles, respected the welfare of animals, and excluded situations when a			
find publications in which various special cases are described in detail. It is considered normal			
animals study the relevant literature and are informed of these principles. If you publish an article	and there are reasons to believe		
that you could have used animals but did not, then you should write:	T		
This article does not contain any studies involving animals performed by any of the authors.			
STEP 2: INCLUDE THE STATEMENT OF COMPLIANCE WITH STANDARD OF RESEA	RCH INVOLVING PLANTS AND		
RESEARCH ON THREATENED/ENDANGERED SPECIES			
If your work does not include plants and or threatened / endangered species, continue to the next			
step.			
If your work includes plants and or threatened / endangered species, it is necessary to include a			
statement of compliance with standards of research involving plants and or threatened /			
endangered species.			
a) All applicable international, national, and/or institutional guidelines related to plants			
in accordance with guidelines provided by the authors' institution(s) and national or			
international regulations were followed			
b) International Union for Conservation of Nature (IUCN) policies research involving			
species at risk of extinction were followed.  STEP 3: INCLUDE THE STATEMENT OF COMPLIANCE WITH STANDARDS OF	DESEADOH INVOLVINO		
SOCIAL MEDIA	RESEARCH INVOLVING		
If your work does not include use of social media plateforms continue to next step.			
If your work includes social media plateforms, it is necessary to include a statement of			
compliance with standards of research involving social media			
The ethics statement and framework from Social Data Science Lab and the ethical			
a) guidelines for digital research from the British Sociological Association has been			
followed			
b) Appropriate anonymization and informed consent from anyone who could potentially be identified has been ensured			
c) Checked the social media platform's user policy or terms of service in the region where			
the research was conducted to determine whether permission is required from the			
platform			
STEP 4: INCLUDE THE STATEMENT OF COMPLIANCE WITH STANDARDS OF HUMANS AS SUBJECTS.	RESEARCH INVOLVING		
If your work does not include humans as subjects, you may finish the ethical statement or write:			
This manuscript does not contain any studies involving human participants performed by			
any of the authors.			
If your work involves humans, it is necessary to include two additional statements.			
All procedures performed in studies involving human participants were in			
accordance with the ethical standards of the institutional and/or national research			
committee and with the 1964 Helsinki Declaration and its later amendments or			
comparable ethical standards.  Informed consent was obtained from all individual participants involved in the			
study.
