

INSTRUCTIONS TO AUTHORS

Journal of Farm Sciences (Formerly known as *Karnataka Journal of Agricultural Sciences*) is a peer reviewed quarterly journal devoted to publish original research/review articles and short communications in the fields of Agriculture, Horticulture, Veterinary, Fisheries, Agricultural Engineering, Community Science and allied subjects. The manuscript will be considered for publication in the journal if it is not submitted for publication elsewhere. The results described in the manuscript should be novel and significant. **Articles with data of five years old experiment or trial will not be accepted.** The Editorial Committee has right to accept or reject a paper, and the committee does not shoulder any responsibility for the opinion(s) expressed in the paper by the author(s). Once a paper is accepted for publication, it should not be published elsewhere either in the same or abridged form or in any other language, without the written permission of the Editor. All submissions of post-graduation studies should be **routed through proper channel. The manuscripts are published on cost basis. Therefore, the authors are requested to co-operate in bearing the printing cost if the manuscript is accepted for publication.**

All correspondence should be addressed to:

The Editor

Publication Centre, University of Agricultural Sciences

Dharwad - 580 005, Karnataka, India

Email: editor@uasd.in Phone: +91 836- 2748748; Fax: +91 836 - 2748199

Manuscript and its arrangement

Should be typed in double line space on A4 size paper on one side of the page only, with 2.5 cm margin on all sides. The language should be simple and care should be taken to check up the spellings, punctuations etc. All tables should be serially numbered, should not be too lengthy and should have a heading stating concisely the contents. Each table should be typed on a separate sheet and not with the running matter, but placed at the end of the running text. The entire manuscript to be submitted online directly to the editor (editor@uasd.in) or to OJASat epubs.icar.org.in/ejournal/index.php/JFS/user/register.

The contents of **Research Paper** should have the main headings like **Title, Author list, Affiliation, Correspondence, Abstract, Key words, Introduction, Material and methods, Results and discussion, Conclusion and References.** Acknowledgement, if any, may be included as the last paragraph of the text before the References part. Subheadings under the above main headings should be avoided. The contents for **Research Note** should be organized without mentioning the headings as above, but, with the **Title, Author list, Affiliation, Correspondence, Abstract, Keywords and References.** The contents of **Review Article** should include **Title, Author list, Affiliation, Correspondence, Abstract, Key words, Main body, Conclusion and References** with subheadings as required in the article.

Format for author list and affiliation

Venugopal C K¹, Naidu G K², Hegde G M³ and Rao M S L^{3*}

¹Department of Horticulture, University of Agricultural Sciences, Dharwad 580 005, India

²Department of Genetics and Plant Breeding, University of Agricultural Sciences, Dharwad 580 005, India

³Department of Plant Pathology, University of Agricultural Sciences, Dharwad 580 005, India

Email ID* of the corresponding author.

*Email with institute domain is preferred over that of other domains (gmail, rediffmail, hotmail etc)

The authorship and its order furnished at the time of registration of the manuscript is final. If the paper emerges out of M.Sc. / Ph.D. thesis, a certificate by the Head of the Department to the effect that the authors were associated with the research work in the capacity of Chairman / Member of the Advisory Committee must accompany the paper. In such cases, the first name should necessarily be of the student concerned and **should be routed through the Dean (PGS) of their institution.**

Details of the main headings

- Title** : This should be informative but concise. **Only the first letter of the title must be in capital (sentence case).** No abbreviations should be used in the title.
- Abstract** : The abstract must be brief and informative **with a maximum of 200 words**
- Key words** : About 4-5 Keywords without abbreviations need to be mentioned compulsorily for a full-length research paper and research note also, to be arranged alphabetically as indicated in the following example.
Key words: Bibliometric profile, India's position, Key research areas, Millets, Year-wise distribution
- Introduction** : The introduction should be brief and state the objective of the experiment. The review of literature should be pertinent to the problem. introduction should not be more than **350 words.**

- Material and methods** : This should be precise and clear. Whenever the methods of other authors are followed, the reference of that paper is to be cited (instead of repeating the procedure). It should include experimental design, treatments and techniques employed. **The year of experiment /investigation carried out should be mentioned. This section should not be more than 250 words.**
- Results and discussion** : Should be presented clearly, honestly and without fabrication, falsification of in appropriate data manipulation. This section should be restricted to the presentation and interpretation of respective data. Common names of plant species, micro-organisms, insects etc., should be supported with authentic, latest Latin names, which should be **Italics**. When such names are mentioned first time, the full generic name and the species name with the authority should be provided and in subsequent reference, the generic name be abbreviated and the authority be deleted. This section can have a maximum of **700 words**. Headings should be typed in sentence case and aligned left. The paragraph under the headings must start from a line below.
- Conclusion** : Should provide the reader with a clear and concise understanding of the final impressions and ideas. It should recap the key points in the paper and summarize the data in simple terms. It may also be used as a platform and an opportunity to call for further action that may be needed. This section may have a maximum of **100 words**.
- Tables** : Every table should be on a separate sheet and be clear with proper reference in the text. The units of the data should be defined. Appropriate statistical tests should be applied to the data presented. Foot-note should be seldom used. Lengthy tables should be avoided.
- Illustrations** : The illustrations, text-figures and photo prints should be clear. If there are many photo prints, they are to be roused compactly. Whenever photo prints are included, the magnification should be indicated. **Photostat copies of any illustrations are not accepted and, in all cases, originals should be sent.** Legends to figures and photos should be typed on the footnote of the figure/photo. **Colour photos, if needed in research articles could be printed at extra cost.** Abbreviations should be used sparingly if advantageous to the reader. All new or unusual abbreviations should be defined when they are used for the first time in the paper. Ordinarily, the sentences should not begin with abbreviations or numbers. A manuscript shall have a maximum of three tables and two figures or two tables and three figures.
- References** : References should be typed in double line space along with the body of the paper but starting on a fresh page. These should be listed in the alphabetical and chronological order. In the text, the references should be cited as Hayman (1970) or (Hayman, 1970), Sen and Bhowal (1961) or (Sen and Bhowal, 1961), Tosh *et al.* (1978) or (Tosh *et al.*, 1978) and (Crenshaw *et al.*, 1995; Cummings and Zoghbi, 2000) authors.
- Citing References:** The papers cited in the text should only be included in the References. While listing the References, the following format should be followed strictly.
