

**KEY WORDS INDEX**

<b>Key words</b>	<b>Page No.</b>	<b>Key words</b>	<b>Page No.</b>
Actinobacteria .....	86	Genetic advance as per cent of mean .....	6
Agricultural development programmes .....	107	Genetic improvement .....	1
<i>Azadirachtin</i> biorationals .....	66	Genetic variability .....	6
Bada micro watershed .....	42	Germplasm line .....	1
Better parent heterosis .....	14	Growth .....	18,94
Biocontrol agents .....	61	Heritability .....	6
Botanicals .....	61	Horsegram .....	71
Breeding .....	10	Host range .....	71
Cation exchange capacity .....	47	IAA .....	86
Chickpea .....	82	Input use efficiency .....	104
Chilli .....	66	Instability .....	89,94
Collateral host .....	71	Integrated natural farming .....	23
Colour coordinates .....	114	Intercropping .....	57
Colour strength .....	114	Irrigation .....	98
Compound annual growth rate .....	89	Land use system .....	42
Correlation .....	1	Maize .....	14,27
Cotton .....	57	Management .....	82
Cowpea rust .....	71	Morphological features .....	42
Crop diversification .....	98	Mulching .....	111
Decomposition .....	89,94	Mungbean .....	10
Determinants .....	98,107	Nano silver .....	77
Diversity .....	10	Nano zinc .....	77
Drip irrigation .....	33	Nano-DAP .....	27
Dryland agriculture .....	104	Nanoparticles .....	77
Economics .....	23	Nano-urea .....	18
Entomopathogenic fungus .....	66	Natural dyes .....	114
Farmer benefits .....	107	Natural enemies .....	57,66
Fertigation .....	33	Natural farming .....	23
Foliar application .....	27	Nitrogen .....	18
Fungicides .....	82	Northern dry zone of Karnataka .....	104

Nutrient uptake .....	52	Soil depth .....	47
Nutrients dynamics .....	52	Soil microbial biomass .....	33
Nutritional quality .....	61	Soil organic carbon .....	47
Organic farming .....	23	Sowing window .....	111
Output decomposition .....	104	Soybean .....	23
Oyster mushrooms .....	61	Spacing .....	111
Permanent manurial trial .....	47	Specialization .....	98
Phenotypic variability .....	1	Split application .....	52
Pink bollworm .....	57	Sugarcane .....	89
<i>Pleurotus</i> spp .....	61	Sustainable textile dyeing .....	114
Pre-seasonal sugarcane .....	33	Technological change .....	104
Principal component analysis .....	1	Turmeric .....	94
Recommended doses of fertilizers .....	47	Uptake .....	23
Regression analysis .....	107	Variability .....	10
Seed borne pathogens .....	82	Varieties .....	89
Seed dressing .....	27	Water soluble fertilizers .....	52
Seed germination .....	77	Wilt .....	82
Seed yield .....	82	<i>Wrightia tinctoria</i> .....	114
Seedling vigour soybean .....	77	Yard long bean .....	71
Sesame .....	6	Yield .....	18,23
Siderophore .....	86
